Connecting state and local government leaders

Route Fifty Today May 28, 2019

$831 Million Project to Repel Invasive Fish From Great Lakes Gets Army Corps Greenlight

$831 Million Project to Repel Invasive Fish From Great Lakes Gets Army Corps Greenlight

BILL LUCIA | One advocate describes a "race against time" to block Asian carp, which pose a threat to native wildlife.

Lawmakers Take a Hard Look at Facial Recognition Technology

ANDREA NOBLE | One expert estimates a quarter of American law enforcement agencies have facial recognition capabilities, but the technology remains largely unregulated.

State Prohibits Schools From Using Native American Mascots

KATE ELIZABETH QUERAM | Maine became the first state in the country to outright ban schools from using Native American mascots and imagery, though other states have passed similar, less strict measures.

Local Government Technology Across America

Route Fifty hit the road to meet with the innovators and technologists leading this change and to discuss some of the biggest themes in government technology. In this eBook, we look at case studies and best practices from states, counties, and cities leading the way while also exploring what the power of technology could mean for the future of state and local governments.
